## Good example of sustainable production!

---

One product that cannot be sourced from Europe is our high-quality, organically certified **Coconut sugar**. **Sustainability** is nevertheless capitalized here through the traditional harvesting of natural palms in smallholder projects.

The **Coconut sugar** is made from the **nectar** of the inflorescences of the coconut palms. The nectar collected in bamboo tubes is boiled down until it crystallizes. It is then purified and packaged. We have been working very **successfully** with this product from **Indonesia** for more than 5 years now.

Contact us now for this natural alternative sweetener.

In our assortment you can find

## **Organic Coconut sugar**

**Origin:** Indonesia

**New sources of supply acquired!**

---

**Sesame**, which we originally sourced from **Paraguay**, will alternatively be imported from African countries in the future. Due to the climate, this raw material is difficult to obtain from the South American region this year due to severe drought. **Alternatively**, we are procuring goods from **Egypt** and **Uganda** that are comparable in quality.

In our assortment you can find

### **Organic Sesame natural**

**Origin:** Egypt, Uganda, Turkey

### **Organic Sesame hulled**

**Origin:** Pakistan, Turkey
