

Content:

- High-quality coconut oil from sustainable cultivation - RBD & VCO
- Available for discussions at Anuga in Cologne (October 4-8, 2025)

Organic coconut oil from sustainable cultivation.

RBD available now, VCO available from November!

Our inventory includes **organic coconut oil** from controlled cultivation, originally from the Philippines and Sri Lanka and produced according to the highest quality standards. **RBD coconut oil** (refined, bleached, deodorized) is characterized by its neutral taste, high heat stability, and long shelf life; this variety is currently available immediately.

In addition, we carry **VCO - Virgin Coconut Oil**, cold-pressed and natural. It retains its characteristic coconut flavor and valuable ingredients and will be available again in November.

Both

In our product range you will find:

Organic Coconut oil (VCO)

Origin: Sri Lanka
